

## **Applied Field Methods (3-6 credits) in Environmental Science & Policy** ***Culture & the Environment***

In addition to the [ENSP386 \(Internship\)](#) and [ENSP499 \(Honors Thesis Research\)](#) options, students may opt to participate in research or field experiences offered through the Department of Anthropology.

### **ANTH467 - Researching Environment and Culture (Spring semesters)**

The course is a project-based class where students learn methods and analysis to work on a real environmental anthropology research project (for example: what cultures eat vultures as bushmeat or use them for belief practices?)

### **ANTH495 – Advanced Field Training in Brazil (Summer term)**

This study abroad program takes place in a field school led by Dr. Janet Chernela in the Amazon Basin. To learn more: <http://globalmaryland.umd.edu/offices/education-abroad/program/10291>

### **ANTH496 – Field Methods in Archaeology (Summer term)**

This program is an archaeology field school credit. Archaeology students who complete a field school qualify to work in cultural resources management. The archaeologists who conduct surveys prior to road building or park designation, etc. There are 4 different archaeology field schools that fall into the ANTH496 category:

- Archaeology in Annapolis (and E. Shore),
- Forensic Aviation Archaeology (excavating WWII plane in Austria),
- Lattimer Archaeology Project (coal mining community of Hazelton, PA),
- Ireland's Early Modern Period (excavation in Ireland to look at post-Famine communities, Irish migration and diaspora).

To learn more: <https://anth.umd.edu/content/field-schools>

**If you wish to participate in these experiences, please speak with your Culture & Environment faculty advisor, Dr. Shaffer!**
